## **EXAMINER'S AMENDMENT**

This Office action is responsive to the amendment filed on September 15, 2003. Claims 1-22 are pending in this application.

Claims 16-22 have been withdrawn from consideration as being directed to nonelected invention.

- 1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- 2. The application has been amended as follows: cancel claims **16-22** as being directed to a non-elected invention (without traverse).
- 3. Claims 1-15 are allowed.
- 4. The following is an examiner's statement of reasons for allowance:

The prior art taken either singly or in combination fails to anticipate or fairly suggest at least one process step of: a) attaching a third silicon layer to the first silicon layer for forming a second material substrate incorporating the pre-torsion bar, as recited in independent claims 1 and 2; b) etching the silicon layer by using a mask pattern arranged to avoid a region in which the torsion bar is formed, the etching being continued until the intermediate layer is exposed, as recited in independent claims 4-10 and 13; especially when these limitations are considered within the specific combination claimed.

Application/Control Number: 09/995,588
